Dear Mohamad AbulHuda Lahham,

I hope this email finds you well. I obtained your contact details via LinkedIn.

I would like to explore whether there is any opportunity to support Federation of the Syrian Chambers of Commerce for global due diligence, background investigations, risk assessments, and debt collection services. We believe our comprehensive due diligence reports can add significant value to your efforts by providing insights into potential partners and participants in your trade fairs, ensuring they have a solid corporate and financial history.

We also offer background investigations into foreign companies, trade payment history analysis, and credit risk assessments, helping to identify potential risks and support informed decision-making. Our asset tracing services ensure companies have the necessary resources to fulfill their commitments.

Additionally, we provide market entry analysis to aid your businesses in entering foreign markets effectively and conduct training sessions on best practices for due diligence and risk management. Our compliance checks ensure potential partners adhere to local and international regulations.

Since 1987, we have focused on Greater China while also covering other global regions. Our clients range from government departments to financial institutions and various industries, all seeking to verify corporate histories and creditworthiness. Please find attached our Company Profile for your perusal and study.

Please feel free to contact me if you have any questions.

Best regards,
Himson
